Virtual Italian C++ Conference 2020 – Networking Cheat sheet

Join the conference Discord Server: https://italiancpp.org/networking

Open all day long during the event. Afterwards, **everyone will be kicked out** of the server.

How

- The server has both #text-channels and 🔊voice-and-video-channels (*rooms*).
- 🎧 **Please, wear earphones/headphones + mic** to limit audio echoes and noise.
- To join a channel, just click on it!
- 👥 Rooms have a **maximum capacity**. When reached, nobody else can enter.
- 👩👦You can see the list of people connected to **voice channels**.
- 🤝 Please respect our Code of Conduct and Discord's terms and conditions.

The rooms

- 🏛Since the conference was originally planned in Rome, **rooms are named after Roman landmarks and neighbourhoods**. We hope you like this idea!
- 🙍 **Be civilized. Do not talk out of turn**, do not talk over other people.
- 🙋🙋**Staff members will continuously step in and out of the rooms** to give help and facilitate conversations in case of need.
- 🔇🔈 Since there is no "raise hand" button, **turn on your camera to raise your hand**, or use the **mute/unmute idiom** (the staff can help adopt it):

  1) stay muted as much as possible **2)** when you want to speak, unmute yourself

  3) *the moderator* checks who is *not* muted and you *will* be given your turn!

Sponsors

- SPONSORS category is the "sponsors virtual area".
- 🖼Joining a sponsor room is like standing in front of its booth at the conference!

⚠️🙏 *In case of troubles*

- Please do use the channel **#support**, in the STAFF category,
- or mention **@STAFF** from anywhere you need assistance,
- or contact **@Alessandro Pezzato**, **@Stefano** or any other from the STAFF.

Enjoy the conference!
